

ACOUSTIC ABSORBERS

WHAT THEY DO

These foam discs act as acoustic absorbers, giving your headphones a warmer, laid-back sound reminiscent of the original Meze Audio 99 Classics. They reduce brightness and enhance bass presence.

INSTALLATION

Unclip the earpads from the
headphone cup

Place the foam disc on the
baffle plate, centered and flat

Reattach the earpads by
clipping them back into place

NOTES

Removable anytime to return to standard sound
You may need a few minutes to adjust to the new sound character
