

MaiA S3

Versatile stereo integrated amplifier

colour options: ● ●

- **NEW** premium S3 aluminium casework
- **NEW** Bluetooth 5.0 - aptX HD capable (24-bit, up to 48kHz)
- 2 x 40 watts @ 4 ohms
- Dual mono design principle
- 8 inputs (5x analog, 3x digital & 1x wireless BT)
- Cirrus Logic CS4344 24bit/192kHz Multi-bit Delta Sigma
- S/PDIF inputs support up to 24bit and 192kHz
- Phono MM, MI + high output MC input
- Analogue volume control with motor driven potentiometer
- 6,3mm jack headphone output
- Variable output for subwoofer or second zone amp
- Remote control included
- Rigid aluminium casing protects against interference
- Available in silver or black
- Made in Europe

Power output: 2x 23W / 40W at 8 / 4ohms (1% THD)
Frequency response (20Hz - 20kHz): <-0,5dB @4ohm
Channel separation: - 69dB at 10kHz
Signal to noise ratio: 97dB (101dB-,A' weighted) @4ohm
THD: < 0,04% at 10W / 4 ohms
Headphone amplifier: 2x 75mW at 32ohm (1%THD)
Headphone output: 6,3mm jack (16 – 600ohms)
Analogue inputs: 3x pair RCA, 1x phono MM (RCA)
Digital inputs: RCA coax, 2 x Toslink, Bluetooth 5.0 (aptX)
Power amplifier: Texas Instruments TPA3221DDV
DA-converter: Cirrus Logic CS4344 24bit/192kHz
Variable output: 1x pair RCA
Speaker connectors: 4mm Ø banana plugs, spades connectors or naked wire
Power supply: 20V/3A DC;100 - 240V, 50/60Hz
Standby Power consumption: < 0,5 watts
Dimensions WxHxD: 206x55x153 (176mm with sockets)
Battery remote control: 1 x CR2032 / 3V or CR2025 / 3V
Weight: 1070 g without power supply

Everything you need in one device:

The new MaiA S3

The MaiA (My Audio Integrated Amplifier) S3 is the all in one solution for your hifi system. Not only the circuit design was reworked, also the case has been significantly changed and the MaiA S3 uses our new S3 case. Due to the bigger size we were able to improve the circuit board layout in terms of electromagnetic interference. With its 8 inputs you are ready for any kind of source device.

It offers a phono RCA input for MM, MI or high output MC cartridges as well as three line RCA inputs for e.g. the CD Box S3. You can also connect digital sources like your TV or a CD transport via the coax or optical S/PDIF inputs and use the MaiA S3 DAC with a quality up to 24bit and 192kHz. If you want to stream your music from your mobile phone, tablet or pc you can simply connect to the high definition AptX HD capable Bluetooth 5.0 input with a sound quality up to 24-bit & 48kHz which is better than the standard CD quality.

The MaiA S3 also provides versatile output options. Use your favourite headphones to privately enjoy your favourite tracks or connect your speakers with the 4 mm banana plugs and the low noise amplifier will do the rest and provides you musical sound with lifelike characteristics. The variable RCA output also allows you to include a subwoofer or another power amplifier in your setup.

This new integrated amp offers you everything you need to connect your favourite sources and enjoy music in an outstanding quality. With the supplied remote control you are able to analogue change the volume with the motor driven potentiometer and switch your input.

Our new MaiA S3 is designed and produced in Europe and is available in a beautiful black & silver finish.
