## 360° Built-in stand

### Pull up to power on instantly

Setting up has never been so easy. Pull up to power on, and tilt the projector to enjoy your favorite content. Push down to turn off.

### Any angle. Your Way.

360° universal rotation and floor-to-ceiling projection means you can watch your favorites your way.

# ISA Technology

## Uninterrupted Auto Keystone Correction

Perfectly squared and clear images, regardless of the angle or position.

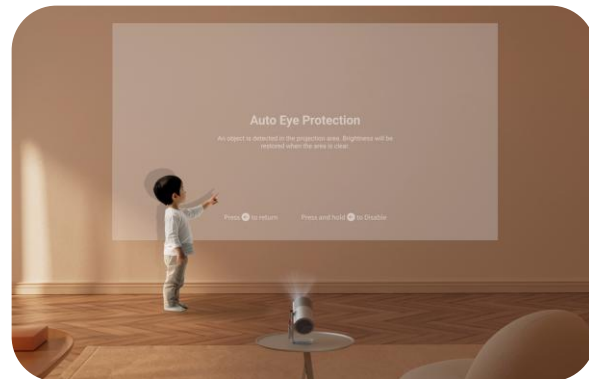

## Uninterrupted Auto Focus

Keeps your display sharp and your viewing experience uninterrupted.

## Intelligent Eye Protection

Automatically dims the screen upon detecting a person approaching, ensuring a comfortable viewing experience. (\*Turned off defaultly)

## Backlight Remote Control

Enjoy one-click access to popular media resources with multiple **shortcut buttons** on our remote control.

## **NEW** Backlight remote control

Enjoy seamless control with illuminated buttons. Ideal for movie nights, late-night browsing, and dimly lit rooms.

# Infrared Mini Remote Control

## Light Weight & Easy Control

Infrared control, no pairing needed  
lightweight and easy to use—just point and click

## Detachable

## Magnetic Creative Filters

From cool to chill in a click.

### 4 Creative Filters for Endless Vibes

Switch between the four filters to suit your environment and your mood.

**\*MoGo 4:** Sunset filter included in the box; the other three require separate purchase

**\*MoGo 4 Laser:** All four filters included in the box

### Ready-To-Go in 1 Second

All you need to do is simply snap the magnetic creative filter on top of the projector lens.
