

T5M WIRED Klipsch®

The T5M Wired earphones work with any device and provide unmatched value in comfort, sound quality, clarity and reliability.

LEGENDARY SOUND + GREAT FIT

After 60+ years of making legendary loudspeakers, we built upon our bold audio heritage to revolutionize the headphone industry. Since 2007 we have been creating the most innovative headphones on the market. We are the performance and comfort winners. Period.

The same advanced acoustic engineering and industrial design from our legendary home theater speakers provide the performance, voice and design for the T5 Series earphones. They are engineered for pure performance and designed to be the best sounding most comfortable headphones on Earth and the embodiment of legendary Klipsch sound.

PATENTED OVAL EAR TIPS

Klipsch in-ear monitors utilize patented contour ear tips that are designed to accurately sit inside the ear canal. These soft oval silicon tips reduce ear fatigue, provide the ultimate comfort and an excellent seal for noise isolation and superior bass. They fit better, they feel better, and only Klipsch has them.

FULL BASS, DYNAMIC DRIVER

Engineered from the ground up to deliver powerful performances from the smallest package, the T5M Wired's dynamic driver combines high output and full bass extension. Ensuring deeper fit and better hold, the smaller acoustic modules are designed to stay in your ears securely and comfortably.

UNIVERSAL EARPHONE FOR ANY DEVICE

Specifically engineered for mobile devices, the T5M headphones give you a front stage pass to your music collection whether you are an Apple®, Android™ or Windows® user. This is the ultimate hassle-free headphone thanks to a single-button remote for track controls and microphone. The T5M is also perfect for mobile gaming.

SWEAT/WATER RESISTANT

IPX4 rated meaning these earphones will withstand the elements.

ACCESSORIES

Available in black and white finishes, each comes with a storage bag, clothing-clip and four different-sized ear tips so you can customize your perfect fit.
