

HESTIA

LCR Speaker

Model:
Titan Hestia

HESTIA

(H) Height	7-1/4" (184mm)
(W) Width	31-1/2" (800mm)
(D) Depth	3-3/10" (84mm)

INTENDED USE

- ✓ Custom Installers & Retailers
- ✓ Home Theater & 2-Channel Music Systems
- ✓ Recording Studio

OBJECTIVE

Titan Hestia is a high-end multi-purpose LCR on-wall speaker. Ideally suited for anyone desiring a superior audio experience without large floor speakers occupying the room. Its sculptural appearance and low profile on-wall design integrates superbly with flat-screen TVs.

Designed to perfectly compliment the Telesto and Tigris floor standing speakers it can be used as center and rear speakers in a complete Titan system. It is also ideally suited as an upgrade in other high quality systems needing a competent speaker to fulfill any position in a HT setup.

The Hestia is capable of thundering dynamics while remaining perfectly composed, detailed and harmonic.

SPECIAL FEATURES & HIGHLIGHTS

- Two 1" TWR1 Wideband silk dome tweeters
- Gold plated push terminals
- Internal aerodynamic motor (minimal turbulence)
- High pass 18dB/octave filter @4kHz
- Full range drivers with 4" Kevlar cones + Piston-Max patented technology
- XLT (eXtra Long Throw)
- AASD (Acoustic Array System Design) technology for controlled coverage
- Vari-Mount installation system for vertical/horizontal placement
