

Cabasse

MINORCA MC IW

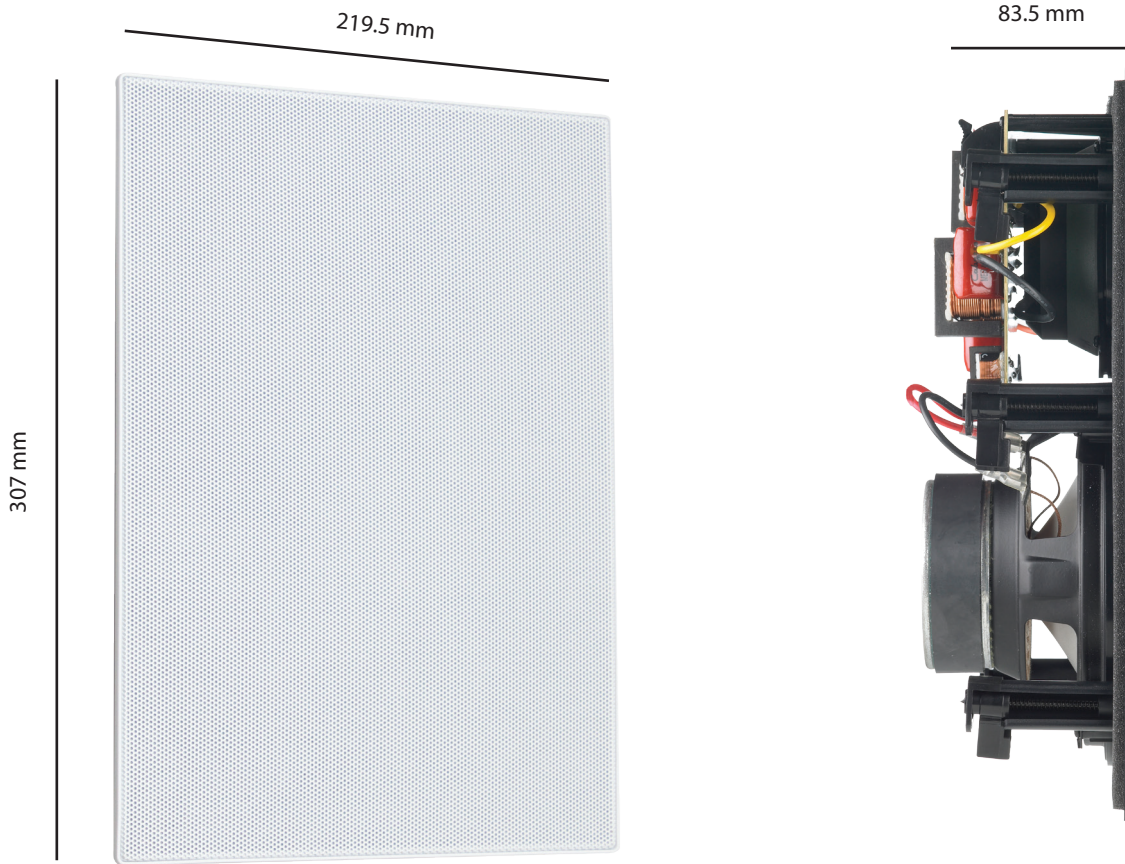

Fitted with the co-axial midrange-tweeter BC10 and a new Duocell based 17cm woofer, Minorca MC IW is a three-way in-wall speaker that combines all the sound qualities of the Cabasse SCS (Spatially Coherent Source) technology.

The transparency and the realism of the soundstage are simply striking, with a unique stability and a depth that erases the walls. Walls in which the Minorca IW disappears, thanks to its ultra thin grille with magnetic link fastening.
