

DALI PHANTOM

K-60 LP

PREMIUM LOW PROFILE
IN-CEILING HI-FI LOUDSPEAKER

The K-60 LP is the best sounding ultra-shallow in-ceiling speaker available. Developed from the ground up, to deliver superior sound quality and class leading bass reproduction, in the tightest of spaces.

SUPERIOR SOUND QUALITY

The newly developed drivers for the K-60 LP unites long throw excursion for remarkable bass reproduction, combined with a detailed and coherent high frequency response. This makes the K-60 LP the best sounding ultra-shallow CI speaker on the market.

EASY INSTALLATION

The integrated dogleg mounting system makes the install process an easy one step action. The K-60 LP is also developed to be used without a backbox behind it. This makes installation extremely easy.

LOW PROFILE INSTALLATION DEPTH

With a total depth from the rear of the ceiling to the rear of the speaker of 36.5mm, the K-60 LP is amongst the most shallow in-ceiling speakers available. Measuring from the front of the speaker to the back of the speaker the K-60 LP has a depth of only 41mm.

DISCRETE DESIGN

Once installed the K-60 LP's elegant, low profile grille can be fitted in place. The standard K-60 LP grille is finished in a true white without hints of grey or yellow. An optional black grille is also available for the K-60 LP and the mesh grilles (round or square) from the DALI PHANTOM E-60 can also be fitted as an alternative.
